ABSTRACT

This annual report compares graduation rates for scholarship athletes at Oklahoma public and private institutions of higher education to those of the student body as a whole over 3- and 6-year periods. Colleges and universities identified scholarship athletes in 11 sport categories: football, basketball, baseball, softball, track and field, wrestling, volleyball, gymnastics, golf, tennis, and "other." Data are reported for: first, within-state bachelor- or associate-degree seeking students who graduated from any public or private institution within the state; and, second, within-institution students who graduated from the institution in which they enrolled as freshmen. The study found that: (1) at comprehensive universities Caucasian scholarship students graduated at about the same rate as all Caucasian students; at regional institutions they graduated at a higher rate; and African American scholarship athletes graduated at higher rates than all African American students in all institutions; (2) both male and female scholarship students graduated at lower rates in comprehensive institutions but at higher rates at regional schools; and (3) in four sports categories--softball, track and field, volleyball, and gymnastics--scholarship athletes at comprehensive universities exceeded average rates for all students; at regional universities and two-year colleges other sports were dominant. Twenty-six tables provide within-state and within-institution data; while four tables provide graduation-rate comparisons by year of enrollment. (CH)

COMPARISON OF GRADUATION RATES FOR SCHOLARSHIP ATHLETES
AND ALL STUDENTS BY SPORT, RACE, AND GENDER
1995-96

Executive Summary

BACKGROUND:

H.B. 1965, which was amended in the 1993 Oklahoma Legislative session in H.B. 1502, mandates that the Oklahoma State Regents for Higher Education compile, publish, and distribute an annual report comparing graduation rates of scholarship athletes to those of the student body as a whole. This is the sixth annual graduation rate report.

The report format and methodology were constructed by the State Regents in conjunction with the Unitized Data System (UDS) Steering Committee composed of institutional representatives. The UDS provided the student-flow data upon which the report is based. The colleges and universities identified the scholarship athletes in 11 sport categories: football, basketball, baseball, softball, track and field, wrestling, volleyball, gymnastics, golf, tennis, and "other sports."

METHODOLOGY:

This study used the student-cohort flow system which tracked student data semester-by-semester with an individual student's identification number in the UDS. The study examined graduation rates over a six-year period for fall 1989 first-time entering freshmen who were full-time, baccalaureate degree-seeking students. Graduation rates for fall 1992 first-time entering, full-time freshmen seeking associate degrees were tracked for three years. The six- and three-year time periods are the standards used in the United States Department of Education (USDE) Student Right-to-Know (SRK) legislation, which corresponds to 150 percent of possible time-to-degree completion.

This report includes two types of data:

- 1) Within the State. These data describe (a) baccalaureate degree-seeking students who graduated with a baccalaureate degree from **any public or private institution within the state** in six years or less from the time they enrolled as first-time entering freshmen at a public institution, or (b) associate degree-seeking students who graduated with an associate degree from **any public or private institution within the state** in three years or less from the time they enrolled as first-time entering freshmen at a public institution.

- 2) Within the Institution. These data describe (a) baccalaureate degree-seeking students who graduated with a baccalaureate degree in six years or less **from the institution in which they enrolled as first-time entering freshmen**, or (b) associate degree-seeking students who graduated with an associate degree in three years or less **from the institution in which they enrolled as first-time entering freshmen**.

FINDINGS:

Statewide graduation rates are more accurate indicators. Therefore, "Within the State" data are presented and discussed unless otherwise noted.

Graduation Rates by Race

This report examined graduation rates for 18,890 students, 546 (2.9 percent) of whom were scholarship athletes. Overall, Caucasian scholarship athletes graduated at about the same rate (48.0 percent) as all Caucasian students at the comprehensive universities, and at higher rates at the regional universities (45.2 percent of athletes and 33.9 percent of all students) and the two-year colleges (31.0 percent of athletes and 13.4 percent of all students). African American scholarship athletes at the comprehensive, regional, and two-year institutions graduated at higher rates (34.2, 30.8, and 28.2 percent, respectively) than all African American students (28.9, 24.7, and 8.4 percent, respectively). Because of the small numbers of Native Americans, Hispanics, Asian Americans, and Nonresident Aliens scholarship athletes, especially at the regional universities and the two-year colleges, comparison results for these groups must be interpreted with caution.

Graduation Rates by Gender

At the comprehensive universities, graduation rates for both male and female scholarship athletes (37.3 and 46.9 percent, respectively) were lower than those for their respective student groups (41.8 and 50.0 percent, respectively). However, graduation rates for both male and female scholarship athletes (42.4 and 54.2 percent, respectively) were higher than those for all male and female students (27.8 and 36.1 percent, respectively) at the regional universities. Similarly, at the two-year colleges, both male and female scholarship athletes graduated at higher rates (26.3 and 36.3 percent, respectively) than all male and female students (12.0 and 14.0 percent, respectively).

Graduation Rates by Sport

Among the 11 sport categories studied, the graduation rates for scholarship athletes exceeded the average graduation rates for all students at the respective tier institutions in four sports (softball, track and field, volleyball, and gymnastics) at the comprehensive universities, seven sports at the regional universities (football, basketball, track and field, wrestling, volleyball, golf, and tennis), and six sports at the two-year colleges (football, basketball, baseball, softball, wrestling and "other sports").

Graduation Rates by Year of Enrollment

Comparison of six-year graduation rates revealed that the graduation rates were higher for the 1989-90 cohort than for the 1988-89 cohort for both scholarship athletes and all students at both the comprehensive and regional universities. On the other hand, the graduation rates were lower for the 1992-93 cohort than for the 1991-92 cohort for both scholarship athletes and all students at the two-year colleges.

Graduation Rates

	Scholarship Athletes	All Students
Comprehensive Universities		
1988-89 cohort	38.8%	40.9%
1989-90 cohort	40.0%	45.8%
Regional Universities		
1988-89 cohort	40.5%	30.6%
1989-90 cohort	44.4%	32.2%
Two Year Colleges		
1991-92 cohort	31.3%	16.2%
1992-93 cohort	29.4%	13.0%

Oklahoma State Regents for Higher Education

COMPARISON OF GRADUATION RATES FOR SCHOLARSHIP ATHLETES AND ALL STUDENTS BY SPORT, RACE, AND GENDER 1995-96

BACKGROUND:

In the 1993 session of the Oklahoma State Legislature, House Bill 1965 was amended and is now House Bill 1502. Section 1 of this bill requires the Oklahoma State Regents for Higher Education to compile, publish, and distribute an annual comparison of graduation rates for scholarship athletes to graduation rates for all students (see Appendix A). This report, the sixth annual graduation rate report mandated by H.B. 1502, contains graduation rates for scholarship athletes and all students by sport, race, and gender.

The report format and methodology were constructed by the State Regents in conjunction with the Unitized Data System (UDS) Steering Committee composed of institutional representatives. The UDS provided the student-flow data upon which the report is based. The colleges and universities identified the scholarship athletes in 11 sport categories: football, basketball, baseball, softball, track and field, wrestling, volleyball, gymnastics, golf, tennis, and "other sports."

METHODOLOGY:

The study used the student-cohort flow system to track student data semester-by-semester with an individual student's identification number in the UDS. Tracking students between and among schools relied on data identified by social security number. If a student's social security number was changed, misreported, or withheld, tracking did not proceed.

All students included in this report were first-time entering, full-time, degree-seeking freshmen. The report examined graduation rates over a six-year period for fall 1989 first-time entering freshmen who were full-time, baccalaureate degree-seeking students at comprehensive and regional universities. Graduation rates for associate degree-seeking students who entered two-year colleges as first-time entering freshmen in fall 1992 were tracked for three years. The six- and three-year time periods are the standards used in the United States Department of Education (USDE) Student Right-to-Know (SRK) legislation, which corresponds to 150 percent of possible time-to-degree completion.

This report includes two types of graduation data:

1. Within the State (Tables 1-14). These data describe (a) baccalaureate degree-seeking students who graduated with a baccalaureate degree from **any public or private institution within the state** in six years or less from the time they enrolled as first-time entering freshmen at a public institution, or (b) associate degree-seeking students who graduated with an associate degree from **any public or private institution within the state** in three years or less from the time they enrolled as first-time entering freshmen at a public institution. Students who transferred to and subsequently graduated from another Oklahoma institution were included in the graduation rate of their originating institution.

2. Within the Institution (Tables 15-28). These data describe (a) baccalaureate degree-seeking students who graduated with a baccalaureate degree in six years or less from the institution in which they enrolled as first-time entering freshmen, or (b) associate degree-seeking students who graduated with an associate degree in three years or less from the institution in which they enrolled as first-time entering freshmen.

FINDINGS:

Statewide graduation rates are more accurate indicators. Therefore, "Within the State" data are presented and discussed unless otherwise noted.

Graduation Rates by Race (Table 1)

This report examined the graduation rates for 18,890 students, 546 (2.9 percent) of whom were identified by their institutions as scholarship athletes. Overall, Caucasian scholarship athletes graduated at about the same rate as all Caucasian students at the comprehensive universities, and at higher rates at the regional universities and the two-year colleges. African American scholarship athletes at the comprehensive, regional, and two-year institutions graduated at higher rates than all African American students. Because of the small numbers of Native Americans, Hispanics, Asian Americans, and Nonresident Aliens scholarship athletes, especially at the regional universities and the two-year colleges, any small variation in these numbers could cause significant changes in corresponding percentages. Thus, comparisons of graduation rates between scholarship athletes and all students for these four groups must be interpreted cautiously.

At the comprehensive universities, the graduation rates for scholarship athletes and for all students were about the same for Caucasians (47.8 and 48.0 percent, respectively). African American scholarship athletes graduated at a higher rate than all African American students (34.2 and 28.9 percent, respectively). For Native Americans, Hispanics, Asian Americans, and Nonresident Aliens, no scholarship athletes graduated, compared to 32.9, 27.0, 41.9, and 44.3 percent graduation rates for their respective ethnic student groups.

At the regional universities, the graduation rates were higher for scholarship athletes than for all students for Caucasians (45.2 and 33.9 percent), African Americans (30.8 and 24.7 percent), Native Americans (88.9 and 29.4 percent), and Asian Americans (100.0 and 37.8 percent). There were no Hispanic or Nonresident Alien scholarship athletes. The graduation rates were 23.8 percent for all Hispanics and 32.1 percent for all Nonresident Aliens.

At the two-year colleges, the graduation rates were higher for scholarship athletes than for all students for Caucasians (31.0 and 13.4 percent), African Americans (28.2 and 8.4 percent), Native Americans (21.4 and 13.7 percent), and Nonresident Aliens (60.0 and 21.4 percent). No Hispanic or Asian American scholarship athletes graduated. The graduation rates were 10.6 percent for all Hispanics and 10.6 percent for all Asian Americans.

Graduation Rates by Gender (Table 1)

Overall, the graduation rates were lower for both male and female scholarship athletes than for their respective student groups at the comprehensive universities, but higher at the regional universities and the two-year colleges. At the comprehensive universities, graduation rates were lower for both male and female scholarship athletes than for their

respective student groups (37.3 and 41.8 percent for males, 46.9 and 50.0 percent for females). However, at the regional universities, the graduation rates for scholarship athletes and all students were 42.4 and 27.8 percent for males, and 54.2 and 36.1 percent for females. At the two-year colleges, the graduation rates for scholarship athletes and all students were 26.3 and 12.0 percent for males, and 36.3 and 14.0 percent for females.

Graduation Rates by Sport (Tables 2-12)

Among the 11 sport categories studied, the graduation rates for scholarship athletes exceeded the average graduation rates in four sports at the comprehensive universities, seven sports at the regional universities, and six sports at the two-year colleges.

At the comprehensive universities, the average graduation rate for all students was 45.8 percent. Among the 11 sports studied, the graduation rates for scholarship athletes exceeded this average in four sports (57.1 percent in softball, 47.4 percent in track and field, 66.7 percent in volleyball, and 66.7 percent in gymnastics), and lagged the average in six sports (42.5 percent in football, 28.6 percent in basketball, 0.0 percent in baseball, 25.0 percent in wrestling, 40.0 percent in golf, and 25.0 percent in tennis). There were no scholarship athletes in the "other sports" category.

At the regional universities, the average graduation rate for all students was 32.2 percent. Among the 11 sports studied, the graduation rates for scholarship athletes exceeded this average in seven sports (40.5 percent in football, 44.4 percent in basketball, 60.0 percent in track and field, 66.7 percent in wrestling, 40.0 percent in volleyball, 50.0 percent in golf, and 83.3 percent in tennis), and lagged the average in two sports (20.0 percent in baseball and 0.0 percent in "other sports"). There were no scholarship athletes in softball or gymnastics.

At the two-year colleges, the average graduation rate for all students was 13.0 percent. Among the 11 sports studied, the graduation rates for scholarship athletes exceeded this average in six sports (38.2 percent in football, 33.9 percent in basketball, 26.8 percent in baseball, 25.0 percent in softball, 20.0 percent in wrestling, and 17.9 percent in "other sports"). There were no scholarship athletes in track and field, volleyball, gymnastics, golf, or tennis.

Graduation Rates by Year of Enrollment (Tables 13 and 14)

Six-year graduation rates for the 1988-89 cohort were compared to those for the 1989-90 cohort at four-year institutions, and three-year graduation rates for the 1991-92 cohort were compared to those for the 1992-93 cohort at two-year colleges. At the comprehensive universities, the graduation rates were higher for the 1989-90 cohort than for the 1988-89 cohort for both scholarship athletes (40.0 and 38.8 percent) and all students (45.8 and 40.9 percent). Similarly, at the regional universities, the graduation rates were higher for the 1989-90 cohort than for the 1988-89 cohort for both scholarship athletes (44.4 and 40.5 percent) and all students (32.2 and 30.6 percent). However, at the two-year colleges, the graduation rates were lower for the 1992-93 cohort than for the 1991-92 cohort for both scholarship athletes (29.4 and 31.3 percent) and all students (13.0 and 16.2 percent).

APPENDIX A

An Act

ENROLLED HOUSE
BILL NO. 1502

By: Dunegan of the House

and

Mickle and Roberts of the
Senate

An Act relating to schools; amending 70 O.S. 1991, Section 822, which relates to certain graduation rate reports; modifying certain requirements concerning such reports; providing an effective date; and declaring an emergency.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. AMENDATORY 70 O.S. 1991, Section 822, is amended to read as follows:

Section 822. A. Beginning July 1, 1991, each institution of The Oklahoma State System of Higher Education which is attended by students receiving athletic scholarships shall submit an annual report to the Oklahoma State Regents for Higher Education which shall include:

1. The graduation rate for students at the institution who received athletic scholarships, detailed by sport, year of enrollment, race and gender; and

2. The graduation rate for all students at the institution, detailed by year of enrollment, race and gender.

B. The Oklahoma State Regents for Higher Education shall compile the data contained in the reports submitted pursuant to subsection A of this section and shall publish an annual report making the information available by individual institution by sport, year of enrollment, race and gender and on a statewide aggregate basis by sport, year of enrollment, race and gender. The report shall be distributed to:

1. The Governor;
2. The Speaker of the House of Representatives;
3. The President Pro Tempore of the Senate;
4. The Publications Clearinghouse of the Oklahoma Department of Libraries;
5. The library of each institution of The Oklahoma State System of Higher Education;
6. The State Superintendent of Public Instruction; and
7. Any person upon request.

C. The State Superintendent of Public Instruction shall distribute a copy of the report required by subsection B of this section to the library, athletic office, principal's office or counselor's office of each public secondary school in this state.

The report shall be made available at the school for public inspection.

D. Beginning July 1, 1991, each institution required to submit a report pursuant to subsection A of this section shall provide the information contained in the most recent report to all high school athletes the institution is recruiting and, for every student who signs a letter of intent, shall obtain a signed statement indicating that the student has reviewed and discussed the report with the ~~secondary school guidance counselor or principal of the student~~ such report. Said signed statement shall be available for public inspection at the institution for a period of six (6) years following the date signed.

E. For the purpose of this section:

1. "Athletic scholarship" means any scholarship, grant, or other form of financial assistance whose terms require the recipient to participate in a program of intercollegiate athletics for the institution in order to be eligible to receive the assistance from the institution;

2. "Letter of intent" means a document which is:

- a. provided by an institution of higher education to a prospective student who is offered an athletic scholarship, and
- b. signed by the student to indicate the intent of the student to attend that institution; and

3. "Graduation rate" means the proportion of student athletes to the general student population enrolled in at least twelve (12) credit hours per semester who have earned an associate degree within three (3) years or have earned a bachelor's degree within six (6) years of commencing study for such degree.

SECTION 2. This act shall become effective July 1, 1993.

SECTION 3. It being immediately necessary for the preservation of the public peace, health and safety, an emergency is hereby declared to exist, by reason whereof this act shall take effect and be in full force from and after its passage and approval.
